MODERN. VIBRANT. GLOBAL.

Its colonial past and an ever inclusive and dynamic present add a cosmopolitan twist to its characteristics. Singapore has attracted about 3000 multinational companies, primarily from the US, Europe and Japan, which accounts for almost two-thirds of its manufacturing production. Its success is based largely upon its diversity, not only in business, but in its society's emphasis on tolerance and respect. Singapore also ranked 3rd in the 2013 QS Best Student Cities ranking.

In recent years, Singapore has become Asia's leading financial centre, with more than 130 banks. Business dealings are facilitated by Singapore's excellent communications network, which links the nation with the rest of the world.

CULTURE TIP

Singaporeans do not usually hug or kiss at their first meeting. A firm handshake will do, but a nod or smile sometimes suffices. If possible, begin the greetings and introductions with the most elderly person or those with higher social status.

The right hand is used for interactions such as handshakes, eating without cutlery, pointing etc. Indian and Malay communities reserve the use of the left hand for more personal tasks, and it is considered "unclean".

Punctuality is also considered an important virtue in Singapore. To avoid leaving a negative impression, do try to arrange all meetings in advance and arrive at the designated meeting point on time.

CLIMATE

Singapore's climate is warm and humid throughout the year. The temperature ranges from 23 to 35 degrees Celsius. Heavy rainfall is usually experienced between November to January.

TRANSPORTATION

Public transport is very efficient and convenient in Singapore. The Singapore Subways (known as MRT) are fast and cheap. The nearest MRT stations to the campus are:

Labrador Park near ARC on the Circle
Line (Orange)

Harbour Front near Vivo City on the
Northeast Line (Purple)

Queenstown past Anchor point on the
East-West Line (Green)
